Please amend the subject application as follows:

## **IN THE SPECIFICATION:**

Please amend the paragraph beginning at page 14, line 5 and ending at page 14, line 9 as follows:

--The video and/or audio signals can be IR or RF signals and transmitted over more than <u>one</u> channel at different frequencies to avoid interference and enable different programs to be simultaneously played on different displays. [[Each]]As shown, for example, in Figure 7, each display can include a multiplexer <u>133</u> for selecting programs to display.--
